Note: Government operations on a cash basis concern actual receipts and actual payments of the government during the reporting period. However, revenues are adjusted and presented on a gross basis taking into account revenues settled with EBS subsidies. Likewise, within expenditures government subsidies to EBS are presented also on gross basis. The commitments deficit also takes into account arrears paid for previous years and arrears incurred for the current year. Classification and valuation follow the international methodology of the Government Finance Statistics Manual (GFSM) of the International Monetary Fund.
